

Enhanced Access Clinics

*Did you know that the
North Cotswold Primary Care Network
provides appointments outside of normal
GP practice opening hours?*

The five GP surgeries – Chipping Campden Surgery, Cotswold Medical Practice, Stow Surgery, Whitehouse Surgery and Mann Cottage Surgery - offer a variety of different appointments before 8am and after 6.30pm as part of an Enhanced Access to NHS appointments service.

Dependent on suitability, you may be offered the opportunity to take advantage of these appointments when you call your surgery.

The appointment might not be at your surgery, but at one of the others listed here, you will be advised of the location of the clinic when you book.

If you would like to know more about the Enhanced Access clinics on offer, please ask a reception team member.
